Seiko is a Japanese watch company that began in 1881. Seiko makes watch with a quartz movement, which requires a battery, and an automatic movement, which is powered by the natural movement of your wrist. Changing a watch battery in a Seiko is an easy process, even if you do not have experience working with watches.

The idea being that you get a quartz watch with a very very long lived battery. I've heard estimates of about 10 years on some new kinetics, but my guess is that battery life might be a bit shorter. Citizen uses a similar concept to seiko's kinetic, only that instead of using motion to generate electricity, they use light.
